Dear Mr Agnvall

Surprised by Your passive response, to us dated 18/10/2011, We carefully note that in it's contents You state the Chancellor of Justice being mainly responsible for supervising the lawfulness of the Authorities in Sweden. We think that You thereby confirm what We also believed, which is why We sent the complaint about the lawfulness of the Socialstyrelsen and the SSM to the Justice Chancellor. Both are authorities in Sweden and We show that both are ignoring clear published evidence that their approach to protecting the citizens of Sweden is faulty and that this causes measurable harm to the citizens of Sweden.

It is therefore difficult to understand how Your Office cannot or will not do anything and so We would be grateful if You could

- (1) explain how it is that You are unable to deal with the complaint and
- (2) if it is true that the Justice Chancellor cannot deal with a matter of injustice, please advise how an individual or an organisation would obtain investigation and redress under the various instruments on Human Rights and the Environment that are laid down in the complaint We sent to You and
- (3) send our Complaint further on to any Official body that will deal with this matter
- (4) inform Us of the names involved in this passive decision in the Justice Chancellor's office, as They have become personally legally responsible for the lives lost in any subsequent action relating to death of people that will occur as the consequence of this decision.

Thank You for Your kind consideration.

Yours sincerely,

Ditta Rietuma
